Burlington and _____, in conjunction with all Vermont school leadership and athletic associations, require participants and spectators to behave in a respectful manner. Sportsmanship and a safe playing environment are the top priorities for all Vermont school-sponsored activities, and we ask that all community members work together to ensure a positive and safe environment for all. Under no circumstances should any student-athletes, officials, coaches, or spectators be subjected to any form of hazing, harassment, bullying, racism, sexism, homophobia, transphobia, or discrimination of any form. This behavior is not tolerated, and any of these types of behaviors may result in immediate stoppage of play, ejection, delay and/or forfeiture of game, continuation of play without spectators, and restrictions from attending future contests. A friendly reminder that if you hear or see something, say something to a site administrator, and thank you to all participants for helping to keep our athletic events positive and safe for all.
